Supplement to the South African Journal of Science, September 1977

A

ABBOTT, M. A. *and* DYER, T. G. J. 276
Acidic fermentation products in the rumen of sheep, Concentration gradients of 117
Adult human mandible (Second) from Border Cave, Ingwavuma district, KwaZulu, South Africa 212
Adult ostrich *Struthio camelius*, Rapid *post mortem* removal of the pituitary gland in 250
Aetiology and treatment of capture stress and myopathy in springbok *Antidorcas marsupialis* 28
Age, Health hazard to children who are underweight and underheight for 203
Aggressiveness of honeybees and their pheromone production 209
Agriculture and food production: recent world trends 66
Agriculture, population pressure and planning: the example of the Modjadji Location 359
Air temperature in Rhodesia, Representativeness and variability of 116
Algoa Basin, Plant fossils as indicators of the rate of deposition of the Kirkwood Formation in 278
Aloe pretoriensis Pole Evans, Embryoid formation in callus cultures of 89
Analysis of dose-related autonomic effector responses, Michaelis-Menten equations in 346
Analysis of the temporal behaviour of the level of Lake Malawi 381
Anatomy (Functional) of the stomach of *Hippopotamus amphibius* L. 1758 12
Anatomy of the South African engineer 34
Ancestry of the old Korana woman, Jannetjie Links, from Clarence, O.F.S., drawn by Gregoire Boonzaier 159
Annual rainfall frequency distributions for 80 rainfall districts in South Africa 120
Anomalously large tidal ranges in the early Precambrian Pongola Supergroup, Evidence of 182
Antidorcas marsupialis, Aetiology and treatment of capture stress and myopathy in springbok 28
Anticoagulant for fish blood, Problems encountred with EDTA as 380
APPLETON, C. C. 20, 310
Applied physiology of road safety 199
Aquatic Pulmonata, Observations on the thermal regime of a stream in the Eastern Transvaal; with reference to 20
Area determination (Leaf) using Simpson's rule 247
Art (Greek and Bushman), Spotted line motif in 345
Articular cartilage (immature), Equilibrium density-gradient centrifugation of proteoglycans of 16
Aspects of gibberellin biosynthesis in higher plants 371
Assay (Field) of the pesticide 2-chloro-1-[2,4-dichlorophenyl] vinyldiethylphosphate 90
Astronomical Observatory (South African) conference 164
Atria and ventricles (rat), Serotonin content of 55
Australopithecus (Sterkfontein), Shoulder joint of 80
Autonomic effector responses (dose-related), Michaelis-Menten equations in the analysis of 346

B

Bacteria (non sulphur purple) in effluent treatment processes, Occurrence and possible use of 148
Bacteria (Photosynthetic) in Rietvlei dam 88
BAILEY, J. R. A. 102
Balances (regional and industrial trade) using the Stillwell-Boatwright estimating techniques, Error in 219
Balancing the energy equation 2
BARLOW, D. J. *and* SCOTT, W. E. 240
Bat (Cape fruit) *Rousettus aegyptiacus leachi* in the Eastern Transvaal, Observations on the ecology and biology of 270
Bees (two Old World stingless), Volatile secretions of 119
Behaviour (temporal) of the level of Lake Malawi, Analysis of 381
BEHRENS, H. *and* VOGEL, J. C. 311
BEST, P. B. 216
Biochemical congress 292
Biology and ecology of the Cape fruit bat *Rousettus aegyptiacus leachi* in the Eastern Transvaal, Observations on ... 270
Bio-physical constraints, Model of economic growth under 337
Biosynthesis (gibberellin) in higher plants, Aspects of 371
Birth of a giraffe, Note on 307
BLABER, S. J. M. *and* WHITFIELD, A. K. 218
Black workers in South Africa, Empirical study with: job design, westernization, and job satisfaction 24
Blood (fish), Problems encountered with EDTA as an anticoagulant for 380
Blood (puffadder), Osmotic fragility of 181
Bogie (New) a major breakthrough for the railways 323
Bones, Griffon vultures and carnivores 106
Bones (Old) rattling well 37
Boonzaier, Gregoire – Note on the ancestry of the old Korana woman, Jannetjie Links, from Clarence, O.F.S. drawn by 159
Border Cave, Ingwavuma District, KwaZulu, South Africa, Second adult human mandible from 212
Borehole data for hydrogeological purposes, Recommendations for the routine recording of 229
Bottom sediments of Rietvlei reservoir, Mercury in 86
BOW, P. 361
BRAIN, C. K. 141
BRAIN, P. 41
BRANCH, G. M. 363
Breakthrough (major) for the railways, New bogie 323
Bringing science to the Homelands 357
BRINK, C. v.d. M. 73
BROWN, A. C. 197
BROWN, J. T. 303
BROWN, J. T. *and* GOW, C. E. 278
Brown hyaena *Hyaena brunnea* in the Transvaal, Ecology of; with a distribution map for Southern Africa 262
Bulinus (*Physopsis*) globosus (Morelet), Evidence for a circadian rhythm in the freshwater snail 310
Bullia digitalis (Prosobranchiata) from the South African west coast, Cadmium concentrations in the tissues of 57
Burden or a resource? – Population in Southern Africa 68
Bushman and Greek art, Spotted line motif in 345
BUTZER, K. W. 136

C

Cadmium concentrations in the tissues of *Bullia digitalis* (Prosobranchiata) from the South African west coast 57
Calcium-binding proteins 10
Callus cultures of *Aloe pretoriensis* Pole Evans, Embryoid formation in 89
Cancer patterns in Southern Africa, Two recent studies of 104
Cancer spectrum in Lesotho, 1950–1969 168
Cape fruit bat *Rousettus aegyptiacus leachi* in the Eastern Transvaal, Observations on the ecology and biology of 270
Capture stress and myopathy in springbok *Antidorcas marsupialis*, Aetiology and treatment of 28
Cardanol derivatives as PVC plasticizers 233
Carnivores, Griffon vultures and bones 106
CARR, M. J. *et al.* 251
Cartilage (immature articular), Equilibrium density-gradient centrifugation of proteoglycans of 16
Case for futures research 322
Case for the expanded study of freshwater pollution zoology 260
Caves, Learning from 5
Caves (some Western Transvaal), Structural control of 308
Centrifugation (Equilibrium density – gradient) of proteoglycans of immature articular cartilage 16
Chelatometric and spectrophotometric determination of iron (III) with 2, 4-dihydroxyvalerophenone 378
Children who are underweight and underheight for age, Health hazard to 203
Chromatographic separations of pyrimidine derivatives 343
CIOCHON, R. L. *and* CORRUCCINI, R. S. 80
Circadian rhythm in the freshwater snail *Bulinus* (*Physopsis*) *globosus* (Morelet), Evidence for 310
Clarence, O.F.S., Note on the ancestry of the old Korana woman, Jannetjie Links – Drawn by Gregoire Boonzaier 159
Clinid fishes (other South African) and on *Clinus nematopterus* Günther, Notes on 178
Clinus nematopterus Günther with notes on other South African Clinid fishes 178
COETZER, G. C. *and* TOERIEN, D. F. 88
Collagen in solution, Effects of small electrical currents on 114
Computer Model (World), Study of future trends of population, resources and investments in South Africa by means of 329
Computerised information service (Local) 133
Concentration gradients of acidic fermentation products in the rumen of sheep 117
Conservation and social importance of the Dwesa Nature Reserve 364
Conservation (nature), International views on 6
Conservation of Umngazana Estuary, Notes on 363
Constraints (bio-physical), Model of economic growth under 337

Control (Structural) of some Western Transvaal caves 308
CORRUCCINI, R. S. *and* CIOCHON, R. L. 80
Counter (Mini) for radiocarbon dating of small samples 311
CRAFFORD, B. C. *and* ROUVRAY, D. H. 47
CREWE, R. M. 209
CREWE, R. M. *and* FLETCHER, D. J. C. 119
CRUICKSHANK, A. R. I. 37
CSIR: thirty years on 73
Culex (*Culex*) univittatus Theobald as vector, Epidemics of West Nile and Sindbis viruses in South Africa with 295
Currents (small electrical) on collagen in solution, Effects of 114
CUTHBERT, K. C. *et al.* 57
Cyanophyta (two nitrogen-fixing), Detection of L-aspartate: 2-oxoglutarate aminotransferase in 240

D

Date (Radiocarbon) from Regina Ruins, Rhodesia 180
Dates (Radiocarbon) from the Zerrissene Mountain open station settlement complex 251
Dating (radiocarbon) of small samples, Mini counter for 311
DE LANGE, A. ROUKENS *See* ROUKENS DE LANGE, A.
DE VILLIERS, H. 212
Dehydration of marine zoological material: volatility of metabolised selenium at 105–120°C 349
Density-gradient (Equilibrium) centrifugation of proteoglycans of immature articular cartilage 16
Dental services for a transitional society 361
Dependence of physico-chemical properties on topological factors 47
Deposition of the Kirkwood Formation in the Algoa Basin, Plant fossils as indicators of the rate of 278
Derivatives (Cardanol) as PVC plasticizers 233
Derivatives (pyrimidine), Chromatographic separations of 343
Detection of L-aspartate:2-oxoglutarate aminotransferase in two nitrogen-fixing Cyanophyta 240
Determination (Leaf area) using Simpson's rule 247
Determination (Spectrophotometric and chelatometric) of iron (III) with 2, 4-dihydroxyvalerophenone 378
Development and industrial research, Management of 162
Diet of the spotted hyaena, Plant food in 148
Dislocations (gliding edge) and helical proteins: a mechanism for transconformational change 25
Dislocations in the mitochondrial sheath; motility of mammalian spermatozoa, and a possible active mechanical role for the sheath in motility 82
Distribution map for Southern Africa: Ecology of the brown hyaena *Hyaena brunnea* in the Transvaal 262
Distributions (Annual rainfall frequency) for 80 rainfall districts in South Africa 120
Districts (80 rainfall) in South Africa, Annual rainfall frequency distributions for 120
Districts (80 rainfall) of South Africa, Rainfall trends in 274
Diversity (Human) 41
Dolphin (*Lagenorhynchus obscurus*), Tetracycline marking and the rate of growth layer formation in the teeth of 216
Dose-related autonomic effector responses, Michaelis-Menten equations in the analysis of 346
Drainage (mine), Heavy metal enrichment in 242, 365
DU PLESSIS, E. *and* JACOBSEN, N. H. G. 270
DU TOIT, M. E. 345
Dwesa Nature Reserve, Conservation and social importance of 364
DYER, T. G. J. 237, 381
DYER, T. G. J. *and* ABBOTT, M. A. 276

E

Early Precambrian Pongola Supergroup, Evidence of anomalously large tidal ranges in 182
Eastern Transvaal,Observations on the ecology and biology of the Cape fruit bat *Rousettus aegyptiacus leachi* in 270
Eastern Transvaal, Observations on the thermal regime of a stream in; with reference to certain aquatic Pulmonata 20
Ecology and biology of the Cape fruit bat *Rousettus aegyptiacus leachi* in the Eastern Transvaal, Observations on 270
Ecology of the brown hyaena *Hyaena brunnea* in the Transvaal with a distribution map for Southern Africa 262
Economic growth under bio-physical constraints, Model of 337
Edge dislocations (gliding) and helical proteins: a mechanism for transconformational change 25
EDTA as an anticoagulent for fish blood, Problems encountered with 380
Effector responses (dose-related autonomic), Michaelis-Menten equations in the analysis of 346
Effects of small electrical currents on collagen in solution 114
Effects of transportation on swimbladder gases 61
Effluent treatment processes, Occurrence and possible use of non-sulphur purple bacteria in 148
Electric fields (Self-gravity-induced) in the sun 45
Electrical currents (small) on collagen in solution, Effects of 114
Elephant hunting by hamstringing depicted in the rock paintings of Southern Africa 175
Embryoid formation in callus cultures of *Aloe pretoriensis* Pole Evans 89
Empirical study with black workers in South Africa: job design, westernization, and job satisfaction 24
Energy equation (Balancing) 2
Engineer (South African), Anatomy of 34
ENGLISH, D. R. 378
Enrichment (Heavy metal) in mine drainage 242, 365
Environment, isomerism associated with the interaction of a molecule with: restrictional isomerism 51
Environmental heat stress, Thermoregulatory responses of monoamine depleted rabbits to 85
Epidemics of West Nile and Sindbis viruses in South Africa with *Culex* (*Culex*) *univittatus* Theobald as vector 295
Equations (Michaelis-Menten) in the analysis of dose-related autonomic effector responses 346
Equilibrium density-gradient centrifugation of proteoglycans of immature articular cartilage 16
Equisetum, Observations on the hypodermis of 303
ERIKSSON, C. *and* JONES, S. 114
Error in regional and industrial trade balances using the Stillwell-Boatwright estimating technique 219
Esterase D polymorphism in South African Negroids 301
Estimating technique (Stillwell-Boatwright), Error in regional and industrial trade balances using 219
Ethnocentrism and prejudice in a South African student group 344
Evaluation (Faculty), Trouble with 134
Evidence for a circadian rhythm in the freshwater snail *Bulinus* (*Physopsis*) *globosus* (Morelet) 310
Evidence for the structures of two iminium-ion-containing salts using X-ray and n.m.r. spectroscopic methods 341
Evidence of anomalously large tidal ranges in the early Precambrian Pongola Supergroup 182
Expanded study of freshwater pollution zoology, Case for 260
Expected future rainfall over selected parts of South Africa 237
Experimental Biology Group 151, 184, 313
Extra-intestinal stages of mammalian *Isospora* (Protozoa, Coccidia, Eimeriidae), Term for 220

F

Faculty evaluation, Trouble with 134
Fermentation products (acidic) in the rumen of sheep, Concentration gradients of 117
Field assay of the pesticide 2-chloro-1-[2,4-dichlorophenyl] vinyldiethylphosphate 90
Fish at St Lucia, Large scale mortality of 218
Fish blood, Problems encountered with EDTA as an anticoagulant for 380
Fishes (other South African Clinid) and on *Clinus nematopterus* Günther, Notes on 178
FLETCHER, D. J. C. *and* CREWE, R. M. 119
Food (Plant) in the diet of the spotted hyaena 148
Food production and agriculture: recent world trends 66
FÖRSTNER, U. *and* WITTMANN, G. T. W. 242, 365
FORSYTH, A. L. *et al.* 329
Fossil genus (new) linking the Otomyinae with the Murinae: Pliocene mammalian microfauna from Langebaanweg 58
Fossil skull (Important) found at Sterkfontein 227
Fossils (Plant) as indicators of the rate of deposition of the Kirkwood Formation in the Algoa Basin 278
FOURIE, H. O. 110
FOURIE, H. O. *and* PEISACH, M. 349
Fourth Pan-African Ornithological Congress 325
Fragility (Osmotic) of puffadder blood 181
Frequency distributions (Annual rainfall) for 80 rainfall districts in South Africa. 120
Freshwater pollution zoology, Case for the expanded study of 260
Freshwater snail *Bulinus* (*Physopsis*) *globosus* (Morelet), Evidence for a circadian rhythm in 310
Fruit bat (Cape) *Rousettus aegyptiacus leachi* in the Eastern Transvaal, Observations on the ecology and biology of 270
FUGGLE, R. F. 99

Functional anatomy of the stomach of *Hippopotamus amphibius* L. 1758 12
Functional significance of the ribosomal structure 325
Future rainfall (Expected) over selected parts of South Africa 237
Future trends of population, resources and investments in South Africa by means of the World Computer Model, Study of 329
Futures research, Case for 322

G

Gases (swimbladder), Effects of transportation on 61
GERICKE, M. D. *and* HOFMEYR, J. M. 28
GERRANS, G. C. 324
GEVERS, W. 10
Gibberellin biosynthesis in higher plants, Aspects of 371
Giraffe, Note on the birth of 307
GLAUBER, H. S. *et al.* 85
Gliding edge dislocations and helical proteins: a mechanism for transconformational change 25
GOW, C. E. *and* BROWN, J. T. 278
Gradients (Concentration) of acidic fermentation products in the rumen of sheep 117
